

$\begin{matrix} E^b & E & F \\ C & B & C \\ B^b & B & C \end{matrix}$  :| Wind cries Mary  
 Jimi Hendrix  
 1967

After all jacks are in their boxes

$(C \quad B^b) \quad F$

And the clowns have all gone to bed

$(C \quad B^b) \quad F$

You can hear happiness staggering on down the

street

$(G \quad B^b) \quad \begin{matrix} \downarrow & \downarrow & \downarrow \\ E^b & E & F \end{matrix}$

Footprints dressed in red

$(G \quad B^b) \quad E^b E F$

And the wind whispers Mary

$(C \quad B^b) \quad F$

A broom is drearily sweeping

$(C \quad B^b) \quad F$

Up the broken pieces of yesterday's life

$(C \quad B^b) \quad F$

Somewhere a queen is weeping

$(G \quad B^b) \quad E^b E F$

Somewhere a king has no wife

$(G \quad B^b) \quad E^b E F$

And the wind, it cries Mary

Lead  $F \quad E^b | B^b \quad G : | 3X$

$G | | B^b | | D^b | | F | F$

(C Bb) F

The traffic lights they turn a blue tomorrow

(C Bb) F

And shine their emptiness down on my bed

(C Bb) F

The tiny island sags downstream

(G Bb) EbEF

'Cause the life that lived is, is dead

(G Bb) EbEF

And the wind screams Mary

(C Bb) F

Will the wind ever remember?

(C Bb) F

The names it has blown in the past

(C Bb) F

And with its crutch, its old age and its wisdom

(G Bb) EbEF

It whispers "No, this will be the last"

(G Bb) (EbEF) / / /

And the wind cries Mary

last
